### Write down everything you know

Topic:	Pair/As	set: T	F:		
Write everything you know (brain dump):					
Core idea / de	finition:				
Inputs / param (periods, band	neters Is, data):				
Output / signa exactly tells yo	l (what ou to act):				
Market context (trend / range					
Timeframes th	at				
Invalid cases (when NOT to t	use):				
Explain it simply					
One-sentence	plain English ex	planation (no jargon)			
If-then rule:					
If		,then i			
Execution in 3	lines:				
Entry	Stop	Target	RR ≥		
Find gaps study again					
What I cannot define / calcul	ate yet:				
	nat happens				
define / calcul Edge cases: wh	nat happens s very strong? where does				
Edge cases: who when a trend is	hat happens s very strong?  where does alse signals?				
Edge cases: when a trend is Failure modes: this tool give for Study sources (book, article, continue)	hat happens s very strong?  where does alse signals?  to fill gaps chart replay):	with example			
Edge cases: when a trend is when a trend is this tool give for Study sources (book, article, expected by the sources of the sources).	hat happens s very strong?  where does alse signals?  to fill gaps chart replay):	with example examples (keep it rea

# Test with self-questions

#### Ask yourself:

Take-profit:

- Do I now know why?
- What invalidates the idea?
- ✓ Is max risk defined?
- Does the higher timeframe agree?
- Where does this tool FAIL?
- ✓ Is news risk checked?
